- Material should match
- 1) Chemical properties as per IS 1030 table-01
 - 2) Mechanical properties as per IS 1030 table-02

M-20 U-bolt of required size according to the existing pole 9m/7m.

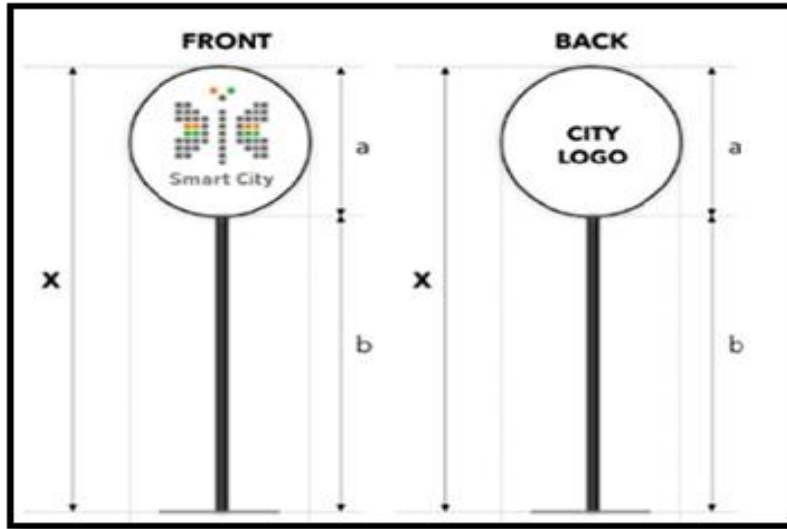

Item Specification

Retro-Reflectorised Signs

Providing and fixing of retro – reflectorised designed logo and informatory sign as per IRC:67 made of high intensity grade sheeting, affixed onto a 1.5mm thick circular aluminium sheet on both sides. The circular sign board supported by two horizontal square hollow section of 35x35x3.2mm, attached to MS plate of 250x300x4mm and fixed to the existing pole by M-20 U-bolt of required size according to the existing pole 9m/7m. The gaps between the circular sheeting are covered with 1.5mm thick aluminium sheeting, providing a smooth edge finish, and the entire assembly is coated with powder coated paint. Item includes cost of all materials, bolting, fixing, welding, soldering, reworking, loading, unloading, lead, lift, transportation and any incidental charges etc. Complete as per direction of Engineer In-Charge. Work conforming to clause 6.7 & (Table No- 6.2) of IRC 67-2012 for Type XI retro reflective sheeting from the sheeting manufacturer & a certified copy of test reports from an independent test laboratory conforming to clause 6.9 of IRC 67-2012, MORTH vide Clause 801.3 and ASTM D4956

Item Specification	
<p>Retro-Reflectorised Signs</p> <p>Supply and Installation of retro-reflective designed logos and informative signs, in accordance with IRC:67 specifications, utilizing high-intensity grade sheeting. The logos and signs are mounted on an MS rectangular plate measuring 2100X500X3.15mm, supported by a 60X40X2.9mm frame structure, and firmly attached to a vertical rectangular hollow section of dimensions 200X100X4mm. This assembly is securely mounted on a base plate measuring 500X500X12mm, using a properly designed foundation with M20 grade cement concrete (mix proportion 1:1.5:3) over a 100mm thick P.C.C (M10) bed. J bolts, as per the provided drawing, are used for fastening. To fill the gaps between the rectangular board with smooth edge finishing, MS sheet of 3.15 mm thickness is used, and the entire structure is coated with powder-coated paint. The structural and foundation details are provided in table-01 and table 02 respectively. Item includes earthwork excavation, cost of all materials, welding (arch welding minimum 6mm thick), soldering, revetting, loading, unloading, lead, lift, transportation and any incidental charges etc. complete as per direction of Engineer In-Charge. work confirming to clause 6.7 & (Table No- 6.2) of IRC 67-2012 for Type XI retro reflective sheeting from the sheeting manufacturer & a certified copy of test reports from an independent test laboratory conforming to clause 6.9 of IRC 67-2012, MORTH vide Clause 801.3 and ASTM D4956</p>	

- The last date for submission of quotation is: 07 - 08 -2023 up to 4.30 pm
- The quotation shall be opened on the same day

Conditions:

- 1) Cost of Item shall be inclusive of all taxes With all necessary fixing arrangement as per Specification.
- 2) Quality of material as Indian Standard Specification as updated
- 3) Mention the terms and conditions clearly if any
- 4) The quotation should be signed and sealed by concern Consultant adhering to the above points very clearly.
